Academic Program and Course Description Guide

2023 – 2024

Introduction:

The educational program is a well-planned set of courses that include procedures and experiences arranged in the form of an academic syllabus. Its main goal is to improve and build graduates' skills so they are ready for the job market. The program is reviewed and evaluated every year through internal or external audit procedures and programs like the External Examiner Program.

The academic program description is a short summary of the main features of the program and its courses. It shows what skills students are working to develop based on the program's goals. This description is very important because it is the main part of getting the program accredited, and it is written by the teaching staff together under the supervision of scientific committees in the scientific departments.

This guide, in its second version, includes a description of the academic program after updating the subjects and paragraphs of the previous guide in light of the updates and developments of the educational system in Iraq, which included the description of the academic program in its traditional form (annual, quarterly), as well as the adoption of the academic program description circulated according to the letter of the Department of Studies T 3/2906 on 3/5/2023 regarding the programs that adopt the Bologna Process as the basis for their work.

In this regard, we can only emphasize the importance of writing an academic programs and course description to ensure the proper functioning of the educational process.

Concepts and terminology:

Academic Program Description: The academic program description provides a brief summary of its vision, mission and objectives, including an accurate description of the targeted learning outcomes according to specific learning strategies.

Course Description: Provides a brief summary of the most important characteristics of the course and the learning outcomes expected of the students to achieve, proving whether they have made the most of the available learning opportunities. It is derived from the program description.

Program Vision: An ambitious picture for the future of the academic program to be sophisticated, inspiring, stimulating, realistic and applicable.

Program Mission: Briefly outlines the objectives and activities necessary to achieve them and defines the program's development paths and directions.

Program Objectives: They are statements that describe what the academic program intends to achieve within a specific period of time and are measurable and observable.

Curriculum Structure: All courses / subjects included in the academic program according to the approved learning system (quarterly, annual, Bologna Process) whether it is a requirement (ministry, university, college and scientific department) with the number of credit hours.

Learning Outcomes: A compatible set of knowledge, skills and values acquired by students after the successful completion of the academic program and must determine the learning outcomes of each course in a way that achieves the objectives of the program.

Teaching and learning strategies: They are the strategies used by the faculty members to develop students' teaching and learning, and they are plans that are followed to reach the learning goals. They describe all classroom and extra-curricular activities to achieve the learning outcomes of the program.

Academic Program Description Form

University Name: Al-imam Al-adham college

Faculty/Institute: Al-imam Al-adham college

Scientific Department: Advocacy and rhetoric department

Academic or Professional Program Name: bachelor's in studying scientific legitimate

Final Certificate Name: bachelor's Advocacy and rhetoric

Academic System: annuals

Description Preparation Date: 2023-2024

File Completion Date: 2024

Signature:

Head of Department Name:

Prof. Dr. Radad Khalaf Attah

Date: 1\10\2024

Signature:

Scientific Associate Name:

Dr. Makki Walid Abdel karem

Date: 1\10\2024

The file is checked by:

Department of Quality Assurance and University Performance

Director of the Quality Assurance and University Performance Department:

Date:

Signature:

Approval of the Dean

1. Program Vision

Attainability high scientific score to ensure scientific products outcomes specialist in advocacy and rhetoric that it fits era spirit and agreed with Islamic legislation basics

2. Program Mission

Continuous improvement of the student's knowledge of the legal rulings, the call, and the principles of purposeful Islamic discourse, which is characterized by good morals, pure law, and legitimate moderation.

3. Program Objectives

- 1- Qualifying an elite group of teachers and preachers, who are highly qualified in Islamic knowledge.
- 2- Increasing the scientific and cultural knowledge of the student and interacting with the community.
- 3- Ensuring the quality of the inputs and outputs of the educational product.
- 4- Creating a successful preacher with a new methodology away from extremism and fanaticism.
- 5- Developing students' talents and following them up in a manner consistent with the aspirations of scientific development.

4. Program Accreditation

None

5. Other external influences

Research, observation and application activities in secondary schools

6. Program Structure

Program Structure	Number of Courses	Credit hours	Percentage	Reviews*
Institution Requirements				
College Requirements				
Department Requirements	54	161	100	10,20,30,40% four stage
Summer Training	No			
Other				

* This can include notes whether the course is basic or optional.

7. Program Description

Year/Level	Course Code	Course Name	Credit Hours	
			theoretical	practical
First	First stage	First stage	20	
Second	Second stage	Second stage	22	
Third	Third stage	Third stage	25	1
fourth	Fourth stage	Fourth stage	24	5

8. Expected learning outcomes of the program

Knowledge

Informing students about the importance of Islamic advocacy

Learning Outcomes Statement 1

and the most important Islamic laws that are in contact with our real life	
Skills	
Expanding students' skills in understanding contemporary Islamic reality	Learning Outcomes Statement 2
The student's real interaction through his practical application with society according to his studies	Learning Outcomes Statement 3
Ethics	
Developing students' abilities to share Islamic ideas with others	Learning Outcomes Statement 4
Disclosing one's thoughts and feelings regarding life matters, including the moderate Islamic call brought by Islamic law.	Learning Outcomes Statement 5

9. Teaching and Learning Strategies

Teaching and learning strategies and methods adopted in the implementation of the program in general.

1. (40%) semester exams, and daily attendance and participation are taken into consideration.
2. (60%) end-of-semester exams.

10. Evaluation methods

Implemented at all stages of the program in general.

1. Daily tests
2. Monthly tests

3. Final exams

11. Faculty						
Faculty Members						
Academic Rank	Specialization		Special Requirements/Skills (if applicable)		Number of the teaching staff	
	General	Special			Staff	Lecturer
Prof. Dr. Radad Khalaf Atallah	Fundamentals of Religion	Hadith			Staff	
Asst .Prof. Dr. Hamza Abdullah Mohammed	Fundamentals of Religion	Hadith			Staff	
Prof. Dr. Marouf Mohammed Ismail	Fundamentals of Religion	Hadith			Staff	
Prof. Dr. Taha Ali Dawood	Fundamentals of Religion	Hadith			Staff	
Prof. Dr. Walid Adel Ali	Arabic Language	Grammar			Staff	
Asst. Prof. Mahmoud Hassan Ahmed	Philosophy of Islamic Law	Jurisprudence			Staff	
Asst. Prof. Dr. Al-Muqaddad Khalil Saleh	Philosophy of Islamic Sciences	Religions			Staff	
Asst. Prof. Dr. Saman Saleh Mohammed Hassan	Philosophy of the Fundamentals of Religion	Doctrine			Staff	
Asst. Professor Dr. Moaz Mohammed Obaid	Philosophy of the Fundamentals of Religion	Doctrine			Staff	

Lecturer. Dr. Ali Hassan Ahmed Taama	Philosophy of Islamic Law	Interpretation			Staff	
Lecturer Dr. Khaled Khalil Ibrahim Kaka	Fundamentals of Religion	Interpretation			Staff	
Lecturer Dr. Salah El-Din Mohamed Ramadan Abdullah	Philosophy of Islamic Sciences	Fundamentals of Jurisprudence			Staff	
Lecturer. Dr. Abdel Moneim Gomaa Saleh Mahdi	Philosophy of Islamic Law	Interpretation			Staff	
Lecturer. Dr. Mustafa Mohamed Ali Shaker	Philosophy of Islamic Law –	Advocacy			Staff	
Lecturer. Dr. Yaseen Ahmed Mohamed Daoud	Software Engineering	Computers and Artificial Intelligence			Staff	
Lecturer. Assistant. Ayoub Kamal El-Din Omar Mohi El-Din	Islamic Law –	Comparative Jurisprudence			Staff	
Lecturer. Dr. Ziad Salem Tawfiq Abdel Razzaq	Islamic Law –	Fundamentals of Jurisprudence			Staff	

Professional Development

Mentoring new faculty members

This is done by introducing new faculty members from all academic departments to the university's rules and regulations and providing them – through workshops and guidance – with the tools necessary to succeed in academic work.

Professional development of faculty members

Briefly describe the plan and arrangements for academic and professional development of faculty members such as teaching and learning strategies, assessment of learning outcomes, professional development, etc.

1. Dialogue and discussion with the professor and classmates.
2. Discussion groups and analysis of scientific texts.

3. Daily tests
4. Monthly tests
5. Discussion groups

12. Acceptance Criterion

1. Admission follows direct application to the college according to the regulations of the Ministry of Higher Education and Scientific Research according to the admission window and the balance between the student's desire and his average.
2. The college accepts graduates of Islamic, religious and academic preparatory schools in their scientific and literary branches and vocational preparatory schools.

13. The most important sources of information about the program

Training courses held by the Quality Assurance and University Performance Departments in various colleges and institutes.

14. Program Development Plan

- 1. Scientific communication through seminars, conferences and competent cadres in similar specializations.**
- 2. Reviewing global studies in similar departments to be able to develop research and solve problems.**
- 3. Engaging in acquiring modern scientific expertise to keep pace with communication methods and modern technical progress.**
